ABOUT

Recent software graduate from TUS in Internet Systems Development having gained knowledge and experience within the cybersecurity, data analytics and software development sectors. Diligent and sincere developer always eager to learn new technologies and fields emerging in the world of Information Technology.

EDUCATION

BSC (HONS) IN INTERNET SYSTEMS DEVELOPMENT

TUS: Midlands Midwest | 09/2018 – 05/2022
1st Year GPA: 73.58% (1:1)
2nd Year GPA: 78.53% (1:1)
3rd Year GPA: 78.40% (1:1)
4th Year GPA: 70.00% (1:1)
Relevant Modules: Front-End Development, Back-End Development, Programming in Java, C++, Python, C#, IoT, Mobile App Development, Cross Platform Development, Operating Systems in Linux & Windows. Data, and Security.

CERTIFICATE IN C, C++, PYTHON AND ADVANCED PYTHON

Sai Infosys | 06/2019 – 07/2019
2-month course learning the fundamentals and basics of C, C++ and Python during my summer holidays in 2019. This course also enabled me to get a good grasp on these three languages by doing real-time programs.

SECONDARY SCHOOL

Colaiste Chiarain | 08/2013 – 08/2018
Junior and Leaving Certificate Completed

PRIMARY SCHOOL

St Pauls N.S | 08/2006 – 08/2013
Primary school completed

PROJECTS

FINAL YEAR PROJECT

TUS: Midlands Midwest | 09/2021 – 04/2022
As part of the final year project, Developed a mobile application to assist people with various disabilities (physical and mental) and help them socially interact with people without any disabilities using a real time buddy mobile application.

INTERLOPER HOME DETECTOR

TUS: Midlands Midwest | 01/2022 – 04/2022
IoT Home Automation System that monitors motion in your house and signals if an intruder has been detected within your house sending real-time alerts to homeowners when they are away with video and photo capturing capability all controlled using commands via telegram bot.

TECKNO WEBSITE

Dell Technologies | 03/2021 – 08/2021
Due to a lack of interest in Technology, DELL was told to develop a learning platform that will enable young adults to learn in a fun and interactive way. This project was developed and created on Atom, using HTML, CSS, JavaScript and Bootstrap.

WORK EXPERIENCE

CYBER SECURITY ANALYST ENGINEERING AND OPERATIONS

Dell Technologies | 08/2022 – Present
Driving customer insight into security data, KFS database monitoring, Security analytics and alerting, Supporting threat hunting, supporting audit/compliance. Using Splunk to perform capturing, indexing, and correlating the real-time data and displaying data in different aspects such as graphs, reports, alerts, dashboards, and visualizations.

INTERNET SYSTEMS DEVELOPMENT TUTOR

TUS: Midlands Midwest | 09/2019 – 05/2022
Tutoring first, second & third years of my course, Subjects taught include Java, SQL, HTML, CSS and JavaScript. Also Tutoring my classmates in 4th Year in various assignments and projects. Subjects Mainly Taught were Final Year Project and Software Engineering.

INTERNET SYSTEMS DEVELOPMENT CLASS REPRESENTATIVE

TUS: Midlands Midwest | 09/2019 – 05/2022
Actively gathered and sought out the views of peers on academic issues relating to the course and collated the feedback for presentations at Class Rep Forums and Staff Student Committee meetings in order to continually engage with students in order to improve teaching , learning and other academic services.

CEO & FOUNDER

ReachProduct | 04/2021 – 04/2022
Provide the best source for various different products out there on the market. Also provide customers with the best reviews and recommendations about a product to improve their purchase.

CYBER SECURITY NETWORK ENGINEER SMS INTERNSHIP

Dell Technologies | 03/2021 – 09/2021
